

Sealoc SB621 Weatherproof Sound Bar

Theater quality surround sound in your own private outdoor oasis

The Sealoc SB621 weatherproof sound bar is designed to fill even the largest outdoor spaces with rich and dynamic sound from your favorite movies, sports, TV and music.

The SB621 boasts a total of 8 weatherproof, marine-grade speakers. We included six 2.5" active drivers with Maxxbass® audio coupled with a ported enclosure that delivers rich and deep lows and authentic mids, then added two 1" super tweeters to accurately produce the high frequencies for a bright, clear audio experience. The SB621 is packed with additional features such as IP65 dust and water protection, a 12 volt power input for use in boats, RVs, UTVs and more, Bluetooth 4.0 for streaming music from your smartphone or tablet. Three DSP modes allows you to easily adjust audio settings to match the source type and an ear blistering 114 decibels of max output, without distortion, for filling large outdoor spaces. The Sealoc SB621 can sit on a table top or be mounted above or below your Sealoc outdoor TV. At 35.5" wide, the SB621 is a perfect match for our Sealoc outdoor TVs ranging from 43", to our amazingly-large 98" outdoor panel.

DURABLE METAL GRILLE

Acoustically transparent, weather-resistant metal grille protects speakers.

DIGITAL SIGNAL PROCESSOR

A fully sealed and protected DSP module provides 3 pre-programmed audio modes (music, movie-surround and night-mode).

WEATHERPROOF EXTERNAL CONTROLS

Fully weatherproof external controls allow you to control power, volume, and source inputs.

BASS REFLEX PORT WITH CRITTER GUARD

Reflex port delivers powerful bass from the six 2.5" active drivers. Port is protected from insects with Sealoc's exclusive critter-guard and has no impact on sound quality or volume.

VARIETY OF CONVENIENT INPUTS

Bluetooth 4.0 (Bluetooth Low Energy / Bluetooth Smart) has a range of up to 100 meters. Perfect for streaming audio content in your outdoor setting. HDMI 2.0 (with ARC) and Digital Optical Audio (Toslink) inputs pair easily and quickly with your TV or other audio sources. 3.5mm analog (Aux) input is perfect for any legacy device.

Meets CE EUT EN-62479:2010 Standards
